Safety of Funds

Account Segregation

Titanedge Securities Ltd, always puts great effort to maintain a safe and transparent trading environment that will protect its client's privacy, funds and assets. The Company's core priority is to provide a secure environment for its Client's funds.

Thus, the Company ensures that its Clients' funds are kept in segregated bank accounts and are deposited in first-class, trusted and global banking institutions. The Company will never use Clients' funds in its operation or any other investment, always ensuring their protection.

State-of-the-art Technology

In order to ensure the safety of all the transactions made by our Clients, we are working with state-of-the-art technology and we use the most recent, up to date and sophisticated physical hardware and software so as to protect all data systems. Among the things we offer are:

- Strict firewalls and Secure Sockets Layer (SSL) software that is used to protect all data during transmission;
- Transactions are under Level 1 PCI compliance services moderation;
- Trading servers that are located in SAS 70 certified data centers;
- Encrypted transactions and communication data servers.
